

CRISJAY JUEVESANO

Full Stack Web Developer

Daanlungsod Medellin Cebu | 09701531002 | crisjayjuevesano50@gmail.com

OBJECTIVE

Motivated and adaptable individual seeking a position in a dynamic organization where I can contribute to team success, apply my strong work ethic and communication skills, and grow professionally while supporting company goals.

WORK EXPERIENCE:

SaleSnap Corp.

Full Stack Web Developer | August 2025– April 2026

- Developed and maintained responsive web applications using React.js and Next.js
- Translated UI/UX designs (Figma) into clean, functional, and pixel-perfect web pages
- Implemented client-side and server-side rendering using Next.js App Router
- Collaborated with designers, backend developers, and stakeholders to deliver features on time
- Debugged, tested, and resolved frontend issues across different browsers and devices
- Built reusable UI components with Tailwind CSS to ensure consistent design and scalability
- Collaborate with other developers to update the website and create new features.

Social Security System (SSS)– Internship Program

- Assisted clients and members with general inquiries regarding SSS services, requirements, and procedures.
- Provided front desk support by managing client flow and directing visitors to the appropriate counters or departments.
- Helped members navigate online applications such as account registration, loan inquiries, and benefit-related services.

RELEVANT PROJECTS:

OndaFit

- Court and studio booking platform — browse venues, pick time slots, and confirm bookings in one flow.

SK Management System

- Barangay SK management web app focused on organizing records, workflows, and admin tasks in a centralized interface.

Personal CV/Portfolio

- Minimalist personal CV/portfolio website to showcase my frontend skills, projects, experience, and contact details.

EDUCATION:

2021–2025| Cebu Roosevelt Memorial Colleges

Bachelor of Science In Information Technology

SKILLS:

- React.js & Next.js Development – Building modern, component-based web applications
- Tailwind CSS & Responsive Design – Creating mobile-first, responsive user interfaces
- HTML, CSS, JavaScript – Strong foundation in core web technologies
- Git & Version Control – Managing code, collaborating, and tracking changes
- Problem-Solving – Debugging issues and finding efficient solutions
- Communication – Explaining technical ideas clearly to team members and clients
- Adaptability / Willingness to Learn – Quickly learning new tools and technologies
- Attention to Detail – Ensuring clean UI, accuracy, and consistency
